

# HORIZONS

Cope Foundation in Cork Communities

*Support people to take part in their community*

## Activities Assistant Deerpark

Volunteers are required to accompany and support residents to attend activities within their community i.e. cinema, shopping, library, mass, bingo etc. during evenings and weekends.

Volunteers who have skills such as music, art, fitness, gardening could also hold activation sessions onsite. These volunteers must have good communication skills, be kind, dependable and committed to this role.

A full driving licence may also be useful but is not essential as local amenities can be accessed by walking.

The people supported in this service are a fun group and are willing to partake in everything. The volunteer would enhance their lives greatly by getting involved and allowing these social activities to take place.

*Flexible*
